Robot, Education, Travel, Financial Service, Entertainment, Health, Media, IT Services, Professional Services, Retail & Others

Why We Exist

We, unlike robots, do not work only with our brains. We are humans with an uncanny love for technology and immense love for solutions.

Passion for the work we do continuously inspires us to be more and more involved. Adapting to changes help us keep up with latest trends. Our values have, on the other hand, kept us strongly rooted:

We create value

We innovate everyday

We love technology

Integrity

Respect

Commitment

Why We Exist

Integrity

Adhering to high ethical & corporate governance standards that promote an environment of trust, accountability, honesty and upholding of legal and moral obligations.

Commitment

A cohesive dynamic team that is focused on consistently delivering superior results and exceptional customer services on time. We work for excellence.

Respect

Understanding the differences in social backgrounds, perceptions, and contributions for harmonious collaboration and synergy among all individuals and treating each quality with dignity and courtesy.

Create Value

We believe – create value to be valued. This invariably means that our value is dependent on what we create for others. Responsive and consistently delivering excellence by helping them Save Smarter & Grow Faster.

Innovate

We anticipate future needs - enabling us to enhance our capabilities and remain relevant to client's business requirements under changing business conditions. We create new ideas, share it.

Love Technology

This passionate involvement differentiates us from others. We are madly, deeply, absolutely in love with what we do. Surpassing client expectations & achieving new heights of business excellence by leveraging cutting-edge technology and pioneering innovative solution that delivers distinct competitive advantage for our clients.

Why We Exist

Mission

To be among top 10 global digital service companies within 2025

Vision

To make a digitally empowered world

Philosophy

We win, when our clients win

Motto

Create value, to be valued

The Basics

Quality

- ISO/IEC 27001:2013 certified process framework
- Members Of Basis: AS-20-07-857
- Independent QA team
- Fully equipped mobility QA lab
- Independent audit team to ensure process and quality adherence
- Independent security audit with an option of third party certification
- PCI DSS Compliant Operations

Local subsidiaries in India, Canada

Onsite Project Management through local offices

Extensive Partner Network

Intellectual Property Protection

Partner with Microsoft, Google, Amazon, Realcloud, Alibaba Cloud

Financially Robust

Primacy Infotech has strong financial capacity & management

- Company is capable to do yearly 5 Crore taka work.
- Debt free and profitable since inception
- Top line - ARR of US \$1m

Risk Management

- Distributed workforce
- Distributed Product and Services
- Distributed client base
- Distributed industry exposure and revenue channels
- Professional indemnity Insurance

What Makes Us Stand Apart

Technology Leadership

We love technology. We disrupt. We create. We do the new. Primacy Infotech Ltd. is breeding ground for new use-case of technology. We train our talents through our very own Academy.

Flexibility

We are a customer centric, solution oriented business. We develop partnerships to create solid value for our clients. We are flexible in our engagement model, delivery process & pricing model to deliver top value to our clients.

Agile by Design

We are the small big company. We have retained our agility through our unique company culture and a flat organizational structure.

System Integrator Digital Age

Integration of technology, marketing and innovation.

Full Service Digital

We do everything digital under one roof. This enables total ownership of project through single point of contact. Tighter integration among various components ensure superior quality & timely delivery.

Born Digital

We were born digital two decades back. We live a digital life, hence digital comes naturally to us!

Culture of Innovation

We innovate everyday and come up with innovative solutions to solve your business problems.

Enterprise Grade

Successful track record of delivering mission critical, scalable, digital innovation for global enterprises

Custom Application Development

Transform your business with Agile, Scalable & Cost effective Cloud/Web Application Development tailored for your business.

Custom software development is the process of designing, creating, deploying and maintaining software for a specific set of users, functions or organizations. In contrast to commercial off-the-shelf software (COTS),

Website/Mobile Website

Custom Application Development

- PHP/MySQL/MariaDB (Most frameworks)
- NET/C#/MS SQL
- Java/Oracle/PostgreSQL
- Node.js/MongoDB

Content Management System

- Drupal
- MS SharePoint
- WordPress
- Joomla
- Sitefinity
- Kentico
- Sitecore

Customer Relationship Management

- vtiger
- SugarCRM
- MS Dynamics
- Salesforce

Custom Application Development

We build custom applications to help companies save smarter, grow faster, serve better; through automation, business process management, integrated systems to create unique advantages for the business.

We use:

- PHP/.NET/C#/Java/node.js
- CodeIgnitor, Symphony, Laravel, CakePHP, YII
- MySQL/MariaDB/MongoDB/MS SQL/PostgreSQL/Oracle/Sybase

Content Management System

Every website is unique, and so is the Content Management System (CMS) it needs. We understand website build, underlying technology, integration with enterprise applications and above all - PITL. We choose the most suited solution for your business and implement that with perfection to give your website a life

Customer Relationship Management

Managing your existing customers and tracking new opportunities are critical for business growth. We help you engage every individual who touches your brand - customer or prospect; and integrate marketing automation to ensure that contextual touch-points happen without manual intervention.

we work on:

(vTiger, SugarCRM, MS Dynamics, Salesforce)

Website / Mobile Website

Primacy Infotech Ltd. have been working with robust and popular web technologies for just about two decades, and it's something we still love doing today covering a wide spectrum of solutions and frameworks

E-commerce

- Magento 1 and 2
- Prestashop
- nopCommerce
- Volusion

HRMS

BPM

Customer Portals

Intranets / Extranets

Leverage strategic advantage of our digital marketing mix to drive your online marketing success with improved bottom line & brand recognition.

Digital Marketing Consulting

Integrated Digital Marketing

Search Marketing

- Search Engine Optimization
- PPC Management

App Store Optimization

Social Media Marketing

Facebook Apps

Media Buying & Planning

Digital Marketing Consulting

If digital marketing confuses you, you are probably not alone. This continuously evolving marketing strategy needs to be crisp & business aligned to get the maximum ROI. Our consultants work with you to arrive at an effective digital strategy by putting together metrics, insights, knowledge and techniques that are proven to work for your business and industry.

Search Engine Optimization

Search Engine Optimization helps you optimize website structure, bring a user-centric design, and enrich with quality links and citations; all of which are required by search engines for you to be found by users. Our SEO commanders (professionals, consultants?) bring multi-disciplinary skills to make sure that your business is ranked better in search results.

Integrated Digital Marketing

The whole is greater than the sum of its parts - Aristotle Digital marketing encompasses a number of services, strategies and tools. Integrated Digital marketing is a service that helps to connect various dots in order to bring holistic end-to-end solutions. Get going faster with our digital mix approach.

Social Media Marketing

Do you find yourself lost while managing your social media campaigns? Worry no more. You can easily manage your social campaigns with our Social Media Marketing service. You will watch your business grow rapidly.

Media Buying & Planning

We know, it is difficult to find the best ad spaces at the best rates. If you are finding it hard to purchase great ad spaces, our consultancy for Media Planning & Buying ensures you gain access to coveted ad spaces.

Website Maintenance

Conversion Rate Optimization

There could be a zillion roadblocks to conversion on your website. Speak to us today find out how our Conversion Rate Optimization (CRO) strategies can catalyse conversion.

Mini Site/Landing Page

Landing pages and mini-sites are as important as other digital marketing initiatives. Great-looking pages urge your prospects to take action without distractions. Our stunning landing pages and mini-sites conform to your brand norms, and help you achieve higher CTA conversion rates.

Content Marketing

If you want to be heard, you need to speak up & get your word out there. Content Marketing is a crucial part of marketing mix & helps you build your brand better. Our content marketing services include online education, print, & in-person events.

Email Marketing

When you do email marketing right, it can be a powerful tool to reach your audience. On the other hand, doing it wrong can send you straight to the spam folder. Our Integrated Email Marketing approach involves marketing automation, small business CRM and behavioural tools. Whether it is building a beautiful newsletter or getting personally trained by our experts, we have something for every business.

Online Reputation Management

We know, it is difficult to find the best ad spaces at the best rates. If you are finding it hard to purchase great ad spaces, our consultancy for Media Planning & Buying ensures you gain access to coveted ad spaces.

Creative

WOW your users with our creative service that increase stickiness, gain conversions and boost ROI

**Web & App UI/UX
Design**

**Illustration, Graphic &
Infographic Design**

**Logo & Corporate
Identity Design**

PowerPoint Design

**Marketing Animated
Videos & Video Ads**

VR Content Creation

Web & Application UI/UX Design

Today, UI/UX is a big differentiator and often plays the role between failure and success of an application. We design user centric experiences, which are practical and intuitive.

AR/VR Content Creation

Virtual Reality (VR) is the human interface of the future. We can convert your content into immersive virtual reality experiences. Jump on the bandwagon before others do!

Logo & Corporate Identity Design

We design a stunning, memorable custom logo along with exclusive brand assets like visiting card, letterhead and envelope to give your business a unforgettable identity.

Brochure Design

We create an engaging brochure that help you communicate the essence of your brand, product, service or event; thus converting the by-standers into believers and buyers.

Graphic & Infographic Design

We design eye-catching and interesting graphic and infographic, which are visually stimulating, and communicates the message and data intuitively. They can be used on websites, mailers, social media and more.

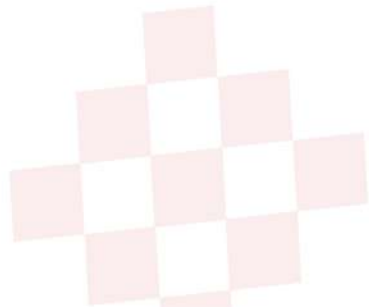

Animated Video

We design extremely engaging animated videos, which gets your message across effectively. These videos can be used for corporate communication, marketing, education, induction, etc.

Analytics

Leverage the power of our industry specific analytics services to gain actionable insights for assured business outcomes and improved processes.

Insurance Analytics

Energy Data Analytics

Web Analytics

**Field Data Aggregation,
Reporting & Analytics**

Insurance Analytics

We bring the power of big-data analytics at the point of decision making to help insurers improve performance across -

- Persistency or Retention
- Cross Sell & Up Sell
- Net Promoter Score
- Claims- Fraud

Energy Data Analytics

We generate actionable insights at the Fog layer through our proprietary algorithms, enabling businesses to double Energy Productivity, using BigData & IoT.

Web Analytics

We provide deeper insights about your website users and their behaviour through Web Analytics, and then use it for Marketing Automation to create measurable successful outcomes.

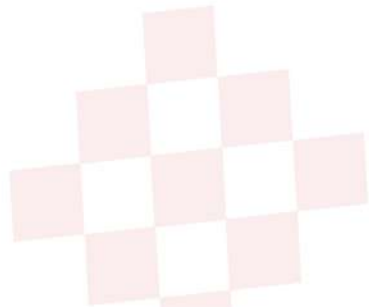

Field Data Aggregation, Reporting & Analytics

Our real time field-data and aggregation platform crunch and provide instant insights from data sourced from thousands of data sources like web, mobile, messaging and applications.

Cloud Infra Management

Optimize performance and minimize infrastructure cost with our reliable cloud infra management services, that makes us a perfect partner for your cloud strategy

Website Hosting

Domain Registration & Transfer

SSL Certificates

Managed Services

Cloud Migration & Hosting

- DevOps, SysOps, WebOps

Cloud Migration & Hosting

Design & Manage Cloud Infra

- Public Cloud (AWS, Azure, Google)
- Private Cloud (VMware, OpenStack, Apache CloudStack)
- Hybrid Cloud

Web Hosting

We keep your website up and running 24x7 with a 99.9% uptime guarantee. You can choose between our racks or cloud services like AWS and Azure.

SSL Certificates

SSL certificates have become a necessity, even for static websites. We provide, install and support SSL certificates to keep your business safe and credible online.

Managed Services

We support your entire digital infrastructure as a managed service, providing you uptime guarantee, proactive support and SLA driven response and resolution. Think of it as your Infrastructure as a Service (IaaS)

Cloud Migration & Hosting

We help you move your application and data to the cloud infra of your choice, and provide managed service and support for the same.

Design & Manage Cloud Infra

We can analyze your network and data requirements and suggest, configure, optimize and manage the right cloud infrastructure architecture for you. It can be

- Public cloud using Amazon AWS or Microsoft Azure,
- Private cloud using opensource tools or proprietary tools, or
- Hybrid cloud by fusing both public and private cloud

Backup, DC & DR

We design, manage and support cloud based backup and disaster recovery solution for your business application and data.

Testing

Improve business resilience with our full range of quality assurance and independent software testing services for all devices and platforms.

Functional Testing

Scalability/Load Testing

Security/Penetration Testing

Automated Testing (Web & Mobile)

Mobile App Testing

API Testing

Functional Testing

We understand the software objective, specification and use cases; and provide quality black-box functional testing.

Scalability/Load Testing

Your software need to scale, and we help you test its scalability through various simulation tools.

Security/Penetration Testing

Our security testing practise checks for known vulnerabilities and conducts penetration testing to help you discover and fix known security issues.

API Testing

In a world of Service Oriented Architecture (SOA), it is critical that your APIs work as expected for functionality, reliability, performance and security.

Automated Testing (Web & Mobile)

We can automate functional testing and provide a sustainable regression testing framework to reduce total cost of quality assurance across the lifecycle of the software.

Mobile App Testing

Mobile Apps are evolving fast, and hence need regular functional and regression testing. Since they work in an extremely diverse and unpredictable user environment, they need special attention to non-functional testing. We have a library of thousands of such test cases to ensure that you cover most scenarios.

Process Outsourcing

Save smarter and grow faster by partnering with us for contracting of your specialized operations and responsibilities including support and maintenance of your business systems.
