## 1. Who We Are

eShikhon.com (ইশিখন.কম) is Bangladesh's first and most established online IT and freelancing training institute, pioneering digital skills education in the country since 2012. Founded by Ibrahim Akbar, eShikhon began its journey under the name 'Infonet' before being relaunched as eShikhon.com in 2015 following an overwhelming community response.

From a single online platform, eShikhon has grown into a comprehensive, blended learning ecosystem operating both online and offline, serving over 1,50,000 learners nationwide and recognized as one of the most trusted EdTech brands in Bangladesh. We are proud members of BASIS, BTEB, and e-CAB, reflecting our commitment to industry standards and national digital development.

Our mission is simple: to build skilled people in Bangladesh. Through 40+ IT and freelancing courses delivered via live streaming, video conferencing, and offline classes, backed by 250+ expert instructors and a national network of 150+ agent centers, we have democratized access to quality digital education across the country, from urban Dhaka to the most remote communities.

## 2. Our Journey — 13 Years of Impact

eShikhon.com holds the distinction of being the first online IT and freelancing training institute in Bangladesh, a pioneer that built the country's EdTech ecosystem before the term 'EdTech' was mainstream in Bangladesh.

eShikhon.com — Timeline of Growth	
2012	Founded as 'Infonet' — Bangladesh's first online IT training institute. Begins offering freelancing and IT courses online to learners across the country.
2015	Rebranded as 'eShikhon.com' following tremendous community response. Platform expanded with more courses and a growing instructor base.
2016	Launched national agent center network, enabling students from remote areas to access IT training through local centers with computers and internet.
2018	Crossed 45+ local agent centers. Became one of Bangladesh's Top 20 EdTech platforms as listed by Future Startup Bangladesh.
2019	Introduced offline (physical) training alongside online blended learning model established at Dhaka main office.
2021	Expanded to 100+ campus ambassadors across colleges and universities. Membership secured with BASIS, BTEB, and e-CAB.
2023	Surpassed 1,50,000+ enrolled learners. Agent center network expanded to 150+ locations nationwide. 250+ instructors on platform.
2024–26	Continued expansion: new courses, industrial attachment programs, ASSET government-backed free training, and RPL (Recognition of Prior Learning) programs launched.

### 3. eShikhon by the Numbers

<b>Certification</b>	Verified digital certificate issued to all graduates

## 5. National Reach & Community Impact

What distinguishes eShikhon.com from most EdTech platforms in Bangladesh is our commitment to reach — not just serving urban Dhaka, but actively building infrastructure to bring IT skills education to every corner of the country.

Agent Center Network	Campus Ambassador Program
150+ certified agent centers established across all divisions of Bangladesh. Each center provides computers, internet, and trained support staff, enabling students from remote areas to access eShikhon's full course catalog without owning a device or internet connection.	100+ campus ambassadors deployed at colleges and universities nationwide. These ambassadors spread IT and freelancing knowledge, recruit learners, and serve as eShikhon's on-ground community presence in their institutions.

**eShikhon.com is the only IT training institute in Bangladesh with 150+ physical agent centers — making us the country's widest-reach digital skills network.**

## 6. Industry Memberships & Accreditations

eShikhon.com's credibility is backed by formal membership and recognition from Bangladesh's leading technology and education bodies:

 <b>BASIS</b>	 <b>BTEB</b>	 <b>e-CAB</b>	 <b>NSDA</b>
-----------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------

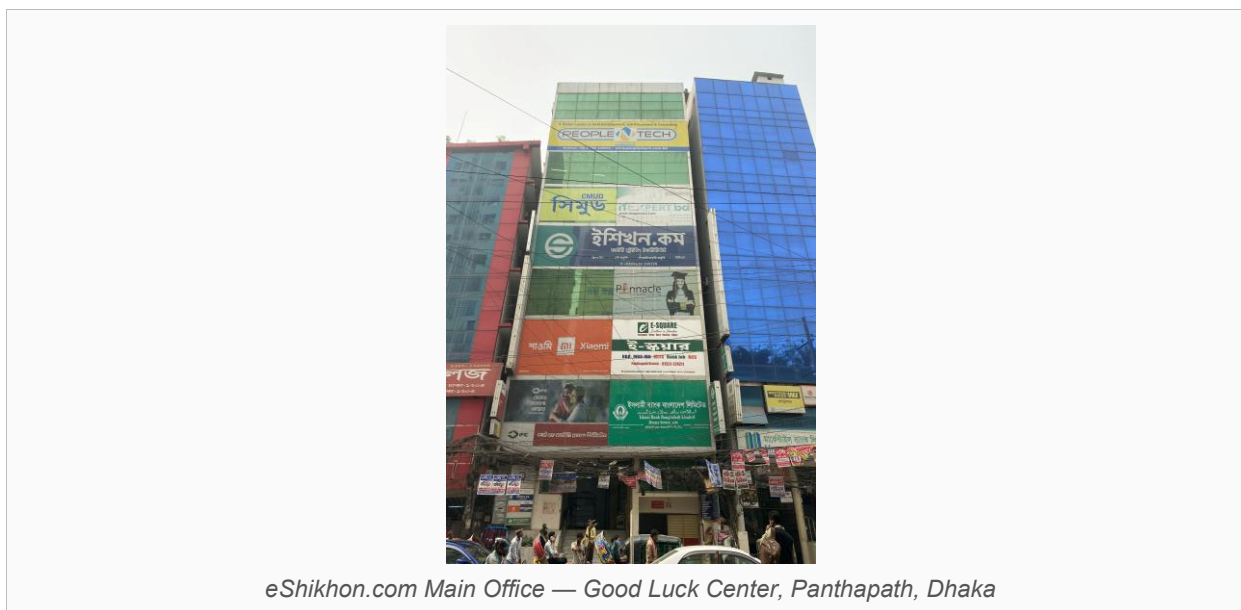

Memberships & Certifications	
<b>BASIS</b>	Bangladesh Association of Software and Information Services — the apex IT industry body in Bangladesh
<b>BTEB</b>	Bangladesh Technical Education Board — government technical and vocational education authority
<b>e-CAB</b>	e-Commerce Association of Bangladesh — digital commerce and online business industry body
<b>NSDA</b>	National Skills Development Authority — issues NSDA-recognized certificates for skill development courses
<b>ASSET</b>	Government-backed free training program; eShikhon is an approved delivery partner
<b>RPL</b>	Recognition of Prior Learning — accredited to assess and certify prior skills of informal learners

Floor	4th floor with dedicated facilities across multiple rooms
Parking	Street-level parking available nearby
Landmark	Opposite SIBL Hospital, Panthapath Signal

## Reception & Welcome Area

Professional front-of-house for all visitors and learners

### 8. Reception & Welcome Area

First impressions matter. Our reception area is the gateway to eShikhon's learning environment — professionally staffed, clearly signed, and designed to welcome learners, corporate visitors, institutional guests, and partner organizations with equal warmth and efficiency.

Reception desk — visitor and learner check-in

Waiting area — comfortable seating for guests

Staff coordination point — reception overview

Entrance corridor and directional signage

Our reception team manages learner enrollment, visitor scheduling, corporate liaison, and day-to-day administrative coordination — fully staffed on all working days.

## Classrooms & Training Rooms

Purpose-built spaces for instructor-led learning and assessment

### 9. Classrooms & Training / Exam Rooms

Our classrooms and training rooms are purpose-built for professional instruction and assessment. Configured with individual workstations and appropriate desk spacing, controlled entry, CCTV coverage, bright LED lighting, air conditioning, and noise isolation — these rooms are designed to support both active learning and formal examination environments.

Training hall — full room layout with individual desks

Classroom — front-facing seating configuration

Side view — desk spacing and workstation arrangement

Rear overview — full room capacity

Individual candidate seating — upright desk format

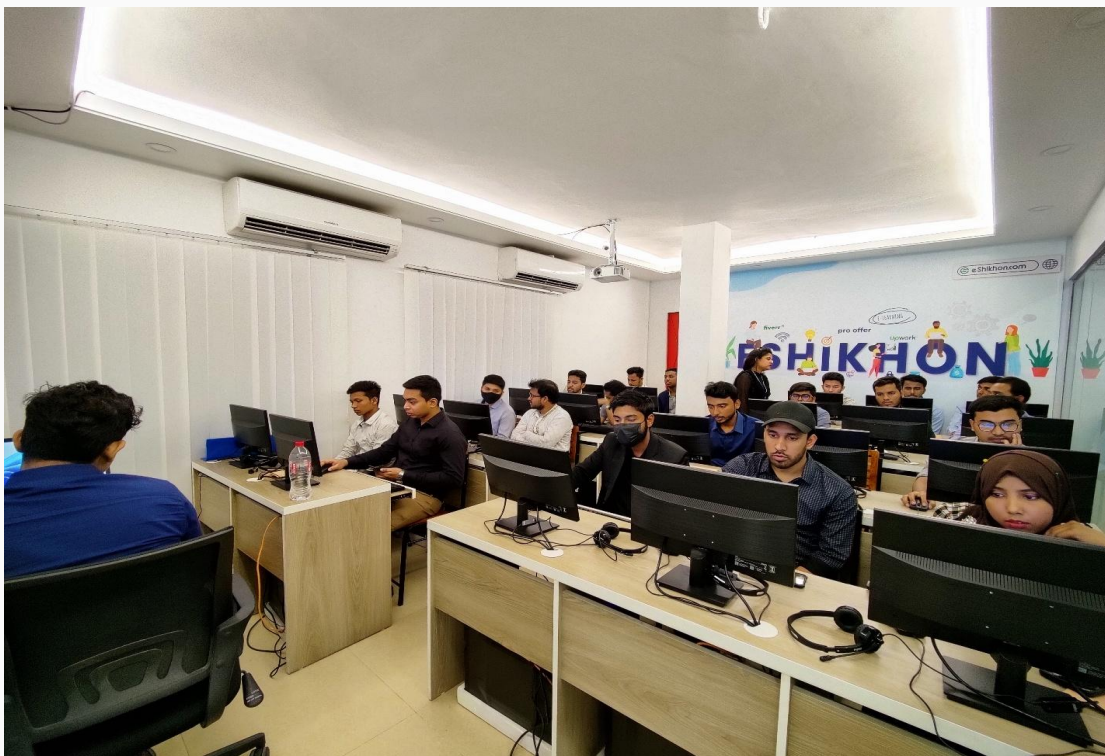

Front-of-room view with whiteboard and projection

Centre-aisle view — spacing compliance

Room lighting and ventilation overview

Training hall — comprehensive full-room view

### Classroom Specifications

<b>Seating Capacity</b>	70 Computer equipped
